

ANTHONY DAS

Orlando, FL 32818 (willing to relocate)

321 - 247 - 9682 ♦ anthonydas46@gmail.com ♦ Website ♦ Github

EXPERIENCE

Entertainment Technology Partners

December 2022 - Present

Web Developer

Orlando, MD

- Migrated multiple websites from WordPress to a custom CMS built with Sanity, resulting in improved website speed, reduced costs, and enhanced developer and user experiences.
- Redeveloped digital marketing infrastructure to streamline workflows, improve SEO, and enhance analytics reporting, leading to a boost in online presence.
- Set up modern DevOps infrastructure, including Git workflows, UI libraries, and CI/CD tooling, to facilitate efficient development and deployment processes.
- Developed and maintained multiple websites using Next.js, WordPress, and SharePoint Framework, ensuring cross-browser compatibility, security, privacy, mobile responsiveness, and seamless integration with external APIs/databases.

The Child and Adolescent Health Measurement Initiative

September 2020 - July 2021

Intern

Remote (Baltimore, MD)

- Supported upgrading of existing Wordpress site to Sitefinity MVC Model by implementing and improving interactive web elements with HTML, CSS, and JavaScript.
- Assessed operations, documentation, and health data sets to improve accuracy and productivity.

Computational Neuroscience Lab at The Mind/Brain Institute

October 2019 - May 2020

Undergraduate Research Assistant

Baltimore, MD

- Expanded computational models of Drosophila neuron behavior using morphology data, experimental results, and theoretical neuron behavior with Python and NEURON.
- Helped compile findings into research paper.
